

Fellowship Dispensing Diploma Year Three
Timetable 2019 - 20

All units must be submitted and units marked CC must achieve a minimum mark of 40%.
See the Guidelines for further information.

Unit		Subject		Date due with Tutor		
1		Refractive Management	Schematic eyes, ametropia	Tuesday	27	August
2	CC	Contact Lenses	Contact lens types, advantages & disadvantages	Tuesday	3	September
3		Refractive Management	Spectacle correction, blurred retinal images, depth of field	Tuesday	10	September
4	CC	Low Vision	The low vision patient	Tuesday	17	September
5		Refractive Management	Corrected retinal image sizes, aniseikonia, contact lenses	Tuesday	24	September
6		Contact Lenses	Contact lens versus spectacles, therapeutic uses	Tuesday	1	October
7		Refractive Management	Ocular astigmatism, refractive surgery	Tuesday	8	October
8	CC	Contact Lenses	Contact lens design & fit, insertion & removal	Tuesday	15	October
9		Refractive Management	Stops & pupils, diffraction	Tuesday	22	October
10	CC	Low Vision	Causes of low vision, access to low vision care pathways	Tuesday	29	October
11		Refractive Management	Visual acuity, test charts, resolution acuity	Tuesday	5	November
12		Low Vision	Pathological causes of low vision, low vision aids for visual field loss	Tuesday	12	November
13	CC	Contact Lenses	Care regimes, wearing schedules, aftercare	Tuesday	19	November
14	CC	Refractive Management	Accommodation & hypermetropia, aphakia, inadequate stimulus myopia, juvenile stress myopia	Tuesday	26	November
15	CC	Low Vision	Low vision assessment routine	Tuesday	3	December
16		Refractive Management	Accommodation & presbyopia, accommodation calculations	Tuesday	10	December
17	CC	Contact Lenses	Serious contact lens complications	Tuesday	17	December
Christmas break						

Unit		Subject		Date due with Tutor		
18	CC	Refractive Management	Routine eye examination, retinoscopy, optometers	Tuesday	7	January
19	CC	Refractive Management	Subjective refraction	Tuesday	14	January
20	CC	Low Vision	Angular magnification	Tuesday	21	January
21	CC	Refractive Management	Ophthalmoscopes & ophthalmoscopy, the slit lamp, Purkinje-Sanson images, keratometry	Tuesday	28	January
22		Low Vision	Ray tracing through low vision systems	Tuesday	4	February
23	CC	Refractive Management/ Low Vision	Visual fields, tonometry, entoptic phenomena	Tuesday	11	February
24		Refractive Management	Binocular vision	Tuesday	18	February
25	CC	Low Vision	Selecting low vision aids	Tuesday	25	February
26	CC	Refractive Management	Eye movements, accommodation & convergence	Tuesday	3	March
27	CC	Refractive Management	Heterophoria	Tuesday	10	March
28	CC	Low Vision	Aftercare of the low vision patient, multi-disciplinary working	Tuesday	17	March
29	CC	Refractive Management	Heterotropia, depth perception	Tuesday	24	March
30		Refractive Management	Duplicity theory, amblyopia, contrast sensitivity	Tuesday	31	March
31	CC	Refractive Management	Colour & colour vision, effects of radiation on the eye	Tuesday	7	April
32		Paediatric Dispensing	Paediatric Dispensing	Tuesday	14	April

Your Practical Training Timetable must be completed and submitted to the College by 31 May 2020.
